Professional Experience and Curriculum Vitae

Hello, my name is Ruth, I am a sole trader of 28 living in the highlands of Scotland. My passion is creating textiles that are fun, cheerful and unique; my inspiration stretches far and wide, from fine art to every day objects to kids' cartoons

I make customisable textiles from organic cotton, and all my supplies are sourced from the UK. I discovered the stencilling technique of printing one year ago when I was looking for a more space effective alternative to screen printing which requires large wooden framed screens. By using this technique to create my products the result is unique every time and creates a beautiful texture, all my textiles are created from home.

My product range is soon to include a varied range of customisable home decor accessories with many more new products to grace my shop. The bags are available in any design and colour you desire at a quick turn around, so please contact me for any personal requests.

Previous Clientele

I work as a freelance independent textile designer.

Awards and Accolades
