## Professional Experience and Curriculum Vitae

My work focuses mostly on interior products inspired by simple, functional designs which respond to a user's needs. I strive to combine aesthetics with function, which is discovered through intensive research into a particular use group. There is a sense of satisfaction I receive from designing a space or product. From concept to realisation the process is inspired, transforming a 2D visualisation into a tangible object or space. The commitment to materials and form is demonstrated in my works and I also highlight the use of organic materials in order to create prototypes.

## Previous Clientele

Benjamin Hubert | Product Design | From September 2011  
Linea Studio | Interior Design | March 2011 - August 2011  
Cornwall Design Season | Exhibition Design | February 2011 – March 2011
