Professional Experience and Curriculum Vitae

I'm soon to graduate the BA (Hons) Graphic Design course at UWE, Bristol. My work is quite interdisciplinary, I enjoy experimenting with form, type and a wide range of media. I approach each project with an open mind and research the subject matter thoroughly.

Having freelanced for a year or so before starting my degree, I'm looking to find either a position in a busy studio or to continue my freelance practice in a more creative environment. I would like to work with clients and colleagues who are as passionate as me about good design and who are willing to try a different approach to achieve their goals.

Previous Clientele

Taproot Foundation
Kate Cheshire
Historic Towns Forum
Urban Herbology
