Professional Experience and Curriculum Vitae

My name is Sam Mardon, a London based Performance Design student at Central Saint Martins, and also a freelance Production Designer and Illustrator. I'm always looking for more opportunities to do artwork and make films; I am open to take commissions for illustrations, paintings and photography, or for roles as an art director/production designer. I own my own dslr camera with video capabilities, and a media laptop with video and image editing programs a plenty, so don't hesitate to get in touch :)
