## Professional Experience and Curriculum Vitae

Commercial photographer Scott Van Osdol keeps it simple, clear, and compelling. He shoots what he loves: documentary style, commercially.

Scott specializes in industry, technology and energy, agriculture and ranching, education and healthcare. He shoots real people wherever possible. His work has won more prizes than a case o' Cracker Jacks: CA, PRINT, HOW, and dozens of local and national awards.

This storytelling impulse goes way back. His first solo exhibit, "Working", opened at the AFL-CIO Union Hall in Austin. Scott comes by this authenticity thing honestly.

## Previous Clientele
