## Professional Experience and Curriculum Vitae

I'm a brazilian freelance artist from São Paulo. I've been working with visual arts for quite some time, mainly illustrations, T-Shirt prints, street art and sculpture. I also had an atelier, in São Paulo, which I had to close while moving south of my country, but I plan to open one again soon, so I can stop messing with the house tools and turning the floor into something Pollock-y.

I love art, Pink Floyd and riding my bike to the beach.
