

### **Professional Experience and Curriculum Vitae**

Selce was founded in Summer 2015 by Riccardo Centazzo and Jaxon Pope. Due to complimentary skills and our common opinion of design, we decided to collaborate and start a company with a strong ethos of practicality and simplicity at its core.

Together we have designed and produced a lamp made of recycled marble, a series of bamboo utensils, a lightweight and waterproof backpack and our latest major endeavour is the Parallel Slots System, a wall mounted shelving system which is the natural consequence of our approach to design.

### **Previous Clientele**

- dasprogramm: a braun and vitsoe collector.
- Future Concept Lab with Japan Tobacco Industry
- Kings College Hospital, London
- Flour Studio, London
- Camberwell College of Arts, London

### **Awards and Accolades**

Please kindly get in touch for more information.

### **Awards and Accolades**

- Winner of John Lewis Award for Design and Innovation at New Designers 2016 in London, UK.
- Finalist of Ashtray for Milan Cityscape with FCL and Japan Tobacco Industries
- Winner of Sickle Cell Project by Kings College Hospital, an educational toy disagnosed children and teenagers
- Winner of the Marius Dean Travel Bursary at Camberwell College of Arts, London, for a marble based project, then displayed in a small exhibition in Ganapatis Restaurant, Peckham, London.
- Winner of a student design residency organised by Matter of Stuff, based in Tuscany, Italy.
