Professional Experience and Curriculum Vitae

Founded in 2005, Silnt is an independent multi-disciplinary studio.

Their intentionally misspelled name provides insight into their philosophy; of being the unseen and unheard force behind the work they produce, distinctive yet anonymous.

Silnt works in the field of art direction and design for record covers, corporate identities, advertising, illustrations, new media, through to motion graphics and broadcast design.

We seek collaborations with artists and institutions to produce art-based projects that relate to both the avant-garde and popular culture, blurring the lines between high and low culture.
