Professional Experience and Curriculum Vitae

Since 1995, Cyberfish has been an audiovisual 3D animation studio with the technical, creative and production capabilities to create state-of-the-art animated films. Cyberfish' objective is to combine advanced computer technology and creative talent to develop 3D animations with artistic qualities. More than 15 years of undisputed 3D experience. Have done work in a wide variety of disciplines.

With our partner Cortical Studios (a bioinformatics company) we combine 3D animation, multimedia and scientific knowledge to meet the clients communication needs. With our academic background in the fields of biotechnology and molecular cell biology and our computer expertise we provide cutting edge 3D animation productions for even the most complex projects. We translate complex scientific information into comprehensible artistic imagery in order to improve communication in the life sciences.
