Professional Experience and Curriculum Vitae

My work has always been a melting pot where I remix all of the things that enter my sphere and captivate me, everything from dark rolling neurofunk to alternative history. They're a collection of moments, feelings, thoughts and fleeting obsessions that act as a sort of time capsule for myself.

I have had the pleasure of working with a selection of cool clients from the music and gaming industries, who appreciate future-thinking illustration. If you fit that bill, I would love the opportunity to work with you also.

I am also a proud member of the prestigious international art collective Depthcore

If you would like to work with me, would like to represent me, or would just like to wax lyrical, then please feel free to get in touch, my team of elves are always at the ready:
