Professional Experience and Curriculum Vitae

Steven Noble has reached a milestone in his career by celebrating a remarkable 25 years as a highly successful world recognized illustrator with a vast variety of award winning illustrations in the span of his lengthy career. He was just recognized by a panel of judges from amongst his peers as one of the “200 Best Illustrators Worldwide” for 2016/2017.

Since graduating from the University of California, Davis in 1990, Steven Noble has mastered a wide range of detail and style within the scratch-board medium and has become internationally recognized for his work from clients as far way as Japan to Europe.

Over the years, he has become equally adept in the woodcut, pen and ink, traditional engraving and steel engraving styles, as well as a variety of stylized scratchboard techniques. His highly disciplined and complex line work is based on over 25 years of experience using X-Acto precision knives carved into pre-inked clay boards which generate very fine line strokes which allow a versatility in the detail from bold woodcuts to very fine traditional 19 century steel engravings.
