Professional Experience and Curriculum Vitae

I'm an automotive artist, illustrator and hot rod designer, specializing in the creation of conceptual artwork for hot rod, muscle car and pro-touring projects, as well as sport trucks, minis and tuner compacts. I also create ad, print and web design tailored to the automotive aftermarket and specialty car industries, serving some of the top shops and businesses in the country.

I've worked tirelessly for over a decade to create a unique look for my work, combining traditional, hand-drawn methods with modern, digital techniques, and have been fortunate to work with the top shops and builders in the country, as well as providing design guidance for some tremendously talented private builders as well. I have had the pleasure of making friends with many talented and skilled builders, artists and photographers, and continue to be inspired by the vision all of these different people bring to their work and the industry. Along the way, I've been granted the opportunity to work on award-winning hot rods and custom cars, and witnessed both the sacrifices and glory that come part and parcel with this dynamic hobby and industry.

You can learn more on my website, and I encourage you to join our mailing list and receive our e-newsletter, which is loaded with how-to's, tutorials, sneak peeks and more.

Awards and Accolades

Mission To consistently provide the ultimate in design creativity and customer service, with an experience and artistic vision that is second to none. To consistently raise the standard of automotive illustration, and to educate the public with regard to the labor and sacrifice required to create a work of fine art.

Experience

Owner, Designer/Marketing and Creative Director

2/2005 – Present, Problem Child Kustoms Studio, Gilbert, AZ

Launched a specialty art studio specializing in graphic, web and vehicle design, as well as marketing and branding services tailored to small and specialty companies. I have created branding strategies, logos, identity and complete websites for a variety of businesses in varying industries, and managed all projects from start to finish in-house. Completed contract assignment with a toy manufacturer, launching four new lines of children's and collectible toys, having created conceptual artwork, branding, and packaging for new products.

Working in contract positions, I assisted in the troubleshooting, training and launch of chapter websites for a major not-for-profit, applying technical web and proofreading and editing skills. I have been published in over one hundred
