Professional Experience and Curriculum Vitae

Formed in 2009 by Tamara Hahn, Tamarama Studios is a multi-disciplinary design studio aimed at providing a visual experience through motion graphics, stop motion animation, film, and design. With each new project we stretch our limits and challenge convention. Tamara Hahn moved to New York City to pursue her career as a designer and animator in 2007. Her desire for a stronger challenge led her to leave The School of Visual Arts in 2009 where she was studying stop motion animation. Since then Tamarama Studios has worked with clients such as: Animal Planet, Science Channel, and Jim Henson Company.
