DIFFERENT TYPES OF FENCINGS

CHAIN LINK FENCING

A chain-link fence is also known as chain-wire fence. It is a type of woven fence. It is mostly used in residential as well as commercial sectors. Due to its low cost and high durability, it has gained importance in the residential sector.

ALUMINIUM POOL FENCING

It is the most common fence surrounding pool areas. This kind of fencing can be designed to match the need, and can be used for pool enclosures, railings for stairs and also as temporary fencing.

GLASS POOL FENCING

Glass fencing is often used to make the house look luxurious. Glass fencing can be used for pool areas, balcony and stair railings. There are various glass fencing agencies that provide glass fencing at really affordable prices.

VINYL FENCING

It's another commonly used fencing type available with a broad variety of styles. It is easy-to-install and are durable. It is slightly expensive fencing technique as compared to other techniques. Vinyl fencing is a weather resistant type of fencing.

WOOD FENCING

Wood fencing is the oldest type of fencing technique. And is preferred mostly for residential constructions. Wood fencing is moderately priced and requires very less care and maintenance.
