Professional Experience and Curriculum Vitae

I am a London based freelance web and graphic designer with 10 years experience, specialising primarily in digital design, Flash animation and conceptual design.

Throughout the years, the emphasis on my work has been music and radio related content, featuring globally recognised clients such as Magic 105.4, KISS, Ministry of Sound, Hed Kandi and Guardian Media Group.

I pride myself on having never missed a project deadline in my life and have it on good authority that I frequently go to 'above and beyond' levels to make sure the people I work for get the utmost in deliverable content. I thrive on new and challenging opportunities and am always on the look out to get involved in new ventures and help people out.

Professional speak aside, I like to think that I am pleasant, approachable and honest as a person.

Previous Clientele

Magic 105.4, KISS Network, Last.fm, Bauer Media, GMG Radio, JAZZFM / Smooth FM, Hed Kandi, Ministry of Sound.
