Professional Experience and Curriculum Vitae

I have 10 years of design experience with 4 years of Art Direction in an advertising agency. Many of my clients showed strong growth and increased market-share. I graduated from Thompson Rivers University and the Digital Art & Design program.

While my background is in print design, I understand and embrace the digital world. Evolving with new mediums and technology is a necessity and something I strive to keep up with. "9-5" is not in my vocabulary. My passion is advertising/communication and believe that sound strategy is the foundation for effective design.

My online portfolio best represents my work...and I do my best "me", in person. I would love the opportunity to speak further about any potential room for us to work together.

Previous Clientele
