Professional Experience and Curriculum Vitae

Hello, I am called Dominique Santos and this is a brief introduction of myself -- I live in Makati, I've lived in this city all my life. I graduated from a humanities course in UST called literature. I like to paint, a lot, but since I graduated from a reading course with theoretical and critical writing, I just put 'writer' on the title thing. Currently, I'm in graduate studies taking creative writing. I can do writing, illustration, and critical analysis in any case.
