Professional Experience and Curriculum Vitae

I am a guy from Sweden that makes artwork from many different materials, such as wood, iron, plaster, Plastic. I make paintings with oil/acrylic and drawings with colored pencils.

And i do sculptures and knives/swords/(smokeable)tomahawks for ornamental use only, they are not hardened.

Sometimes i do some welding, and redo things to look old by incasing them in copper and wood(keyboards and webcams and so on).
