Professional Experience and Curriculum Vitae

As a president of design office AMIX, I developed design services such as asobo design factory and LOGOLO. TOMMY GRAPHICS is one of those services developed during my daily design activities. TOMMY GRAPHICS is a flexible project for those who want to carry out activities without caring for cost-benefit performance, purpose and convenience of advertisement in commercial designs. Making a new discovery and surprise in digital world through collaborative graphic work with photographers, hair and make-up artists, models and etc. is our aim.
