Professional Experience and Curriculum Vitae

In a big nutshell: (the "Coco de Mer" type, you find on Seychelles beaches :-)

As multifaceted, polyglot Designer/Art Director I thrive on projects allowing my creativity to excel. My Design skills are far reaching and active within several medias.

I create professionally around the space of the human body, fashion, uniform Design, accessories, to building homes and planning Interiors. I indulge in digital graphics, painting, wallpapers, green screen backdrops and just finished my first full feature Indie Hollywood movie as Art Director Costume & Set Designer.

By now you must know I get rather bored designing only within one media. Please do not think of me as a "Jack of all trades rather "a Victor of all Design" what I do I do to perfection as your money fuels my creativity. Right opportunities allow me to boil over with creativity, while sensing my clients excitement with my quick visualization in 2D & 3D/CAD not losing focus on budget and style .

Paris, Brussels, New York, Hong Kong, Johannesburg are just some of the cities I had the privilege to call home for work out of 13 countries. My professional experience is paralleled with a constant passion for the Arts.

www.visualsenses.com (my web presence since 1995) gives me the freedom to make myself available when ever and where ever I am needed across the planet.

I look forward you telling me about your classic or most unusual project in need of that dot on your "i" that will translate my creativity into your expected reality.

A vertical collage of 20 photographs by Gabriel Morosan, showcasing various artistic portraits and costumes. The images include a man in a military-style uniform, a man in a floral shirt, a man with a large white beard and crown, a woman in a black and white patterned dress, a woman in a red dress, a man in a blue and yellow costume, and a man in a white and blue costume. The collage is watermarked with 'gabriel morosan' and a colorful circular logo.
