### Professional Experience and Curriculum Vitae

I am working as a manager in Lionel Kiddie City company. I really enjoy my job. I like to play football, and I also like to make friends and new connections. I believe self-learning, love yourself, know about your talent then you get success in your life. I like listening to music and read books, Last month, I read a book named "Vashikaran", is based on the Vashikaran specialist astrologer in ahmedabad topic. It is a very interesting book.
