Professional Experience and Curriculum Vitae

I have been into photography for about 15 years but never made a living out of it till now. Studied analog photography in Mexico City for 3 years and moved to Cozumel Island where i worked taking pictures for tourism, a year ago started to experiment with digital photography and Photoshop and just went crazy about, seems like i found my style at last, i like photographing everything from portraits to comon street scenes and a play a lot with the shadows and blur, love blending and weird effects on my pics.
