Professional Experience and Curriculum Vitae

The Fouzia Madani Agency was founded to allow for very selective artists to develop their work, nurture their talent and give them long term guidance. We aim to offer a supportive environment for our artists' exhibitions, publications and educational projects. We encourage our clients to create the image that will enable for innovative campaigns. Our artists will produce timeless visuals and art works – be it commercial or cutting edge – that motivate, inspire, challenge and unlock the potential of the brand. Because a strong image does not just describe emotions – it creates them.
