Professional Experience and Curriculum Vitae
I specialize in branding, marketing, and storytelling through typographics, illustration and image design.

My work is commissioned by clients in a broad range of industries and media who are looking for new ways to visually communicate evolving and nuanced messages, stories, and brands to their clients and audiences

Having a background as an art director gives me the advantage of understanding my clients' needs beyond the visual solutions I create for them.

Previous Clientele
2002 Winter Olympics
