Professional Experience and Curriculum Vitae

Please kindly get in touch for more information.

Previous Clientele

Quick Fun Facts:

I love working in print mediums and the satisfaction of Do-It-Yourself's.

But I also love coding and digital media.

In 4th grade, I was the only one who self-taught myself HTML and CSS.

Photoshop came with my first computer when I was in 3rd grade — Windows Paint— what?

I definitely laugh and giggle way too often for my own good.

My parents made me practice my calligraphy everyday as a child with this book that had the words outlined.

When they weren't looking I got lazy and painted in the words instead of making the right strokes. Thinking back, I regretted doing that.

In elementary school, I would always try to copy handwritings of others because I thought it was interesting.

Hefeweizen is now of my favorite words to say (hay-fuh-veyt-ssen)
