Professional Experience and Curriculum Vitae

WE LOVE TO TELL A GOOD STORY.

WE BELIEVE IN MAGNETIC IDEAS.

THE INTANGIBLE ATTRACTS US.

Adhesive is a multidisciplinary design studio created by designers Pedro Santos and Ana Santos, which focus in the areas of Branding, Print Design, Interactive Design, Motion Design and Interiors Design.

We believe in the magnetism of a bidirectional brand, open to a dialogue with it's audience, cemented in a differentiated strategy, and emotional closeness.

Our contribution is based on the construction of this dialectic to experience effective communication, dynamic and attractive, in a world where consumers no longer take a passive role, in an economy where intellectual capital and emotional brand engines are essential differentiation and attraction.

Our role is to serve as a bridge in this new economy where dreams become the foundation of the relationship and sharing between brand and consumer.
