Professional Experience and Curriculum Vitae

Aditerum was first established in 1989 as a full service advertising agency, specialising in business to business media planning and buying; the company and its personnel have been many things to many companies over the years but overall we always considered ourselves an integral part of our clients marketing team - in some cases we were the client's marketing team!

We evolved from a one-man band to a world-wide operation with staff in several countries. We fully embrace the "virtual office" concept from the very early days of the internet - and we still do.

Aditerum no longer handles mainstream advertising or media projects and focuses totally on web design and development and when required we will design your corporate identity.

If you are starting a new small business and need your first professional web site or already have an old but out-dated web site that needs a new look, Aditerum is your ideal partner. If your business needs to sell products or services online by accepting credit card payments the look no further as Aditerum is your ideal partner. And if you need help getting more people to visit your web site and to rank higher in search engines such as Google and Yahoo then contact Aditerum today.
