Professional Experience and Curriculum Vitae

I'm a Venezuelan-American living in Canada (phew!). I'm an artist, animator and creator of the webcomic Fall on Me. I'm happily married, and I love books and tea.

If you'd like to read my comic, please click here: <http://www.littleteacup.net/fallonme>

I have worked in animations, illustrations and commercial designs for local Houston clients, and have also directed "The Firefly and the Stars", a children's short animated film based on the story of Italian-Venezuelan writer Renato Agagliate. This animated short won second place in its category during the KidsFirst! 2009 film festival, was chosen as an official selection at the 2010 Wild and Scenic Environmental Film Festival, and won a Gold REMI award at the 2010 WorldFest Houston International Film Festival.

I have also worked as a freelance artist for various clients for illustration and logo requests. I recently finished working for Chocolate Liberation Front as a storyboard and Flash artists for the Wild Kratts website, and also worked as a storyboard revisionist, Flash character designer and animator at 9 Story entertainment.

I hope for the opportunity to keep working in the animation and children's entertainment industry in any way I can!
