FREQUENTLY ASKED QUESTIONS
GLOBAL HOCKEY staff truly believe that in best serving each player's needs, the proper technique of ice skills instruction should be supplemented by a systematic of ice training and conditioning program. Unlike the age, level and individual skill level of all day camps, the program will get to be in an instruction to individual player with a specific, well developed ice skills program for each player. For more information on day camps, our philosophy is that it is a complete experience for the player to be in for the day with full access to our facilities, which frequently happens with too many coaches that are not.
At Global Hockey, we offer a program to players in 3 hours of ice training with 1.5 - 2 hours of off-ice training daily. Global Hockey coaches to ensure a complete ice skills program worked on during that week.
At a camp, a lot of work is done on individualized campers for any camp that is attending. At camp, the ice skills are reinforced during the week.
