Professional Experience and Curriculum Vitae

I am an illustrator, character designer, graphic and web designer based in Slovenia. I am the creator of the brand Artida, cute characters from Slovenia: <http://www.artida.eu/>.

I've been an illustrator for FHM Slovenia, FHM Croatia and AutoBild Slovenia, I won the 1st prize on an international comics contest and the 1st prize on a national one, I had one exhibition of my illustrations and was a part of two other exhibitions of illustration works, all located in Slovenia.

My creations follow two simple rules: attraction and simplicity. I love experimenting with colors, gradients, elegant shapes, readable typography, and I dedicate my time to getting to know my clients and their products so I can make them the best solutions for their business.

Learn more about me on my blog: <http://ajda.gregorcic.eu>
