Professional Experience and Curriculum Vitae
After a long career as an art director and graphic designer I've repurposed myself as an illustrator and jewelry designer. What does illustration have to do with jewelry? Nothing really, but I love paper in all its forms, and you can see the passion by viewing my portfolios of paper jewelry, collage illustration, and monoprints.

Previous Clientele
Illustration - The Washington Post

Jewelry - Corcoran Gallery of Art Museum Shop, The Phillips Collection Museum Shop, Houston Center for Contemporary Craft (eXtreme Tea exhibition, 2010), National Glass Centre Museum Shop.
