Professional Experience and Curriculum Vitae

Alaina is a Point Park University graduate with a Bachelor of Arts in Advertising and Public Relations. I'm looking for employment because I want to do something meaningful with my career, get out of Pennsylvania, see some different places, and dive straight in to the advertising world.

I'm extremely driven, hardworking, and enjoy being a contributing member of society. But most importantly I've got a positive attitude, I like to make people laugh, I'm talented, and I get shit done.
