Professional Experience and Curriculum Vitae

I am a creative photographer; I am compelled to communicate through images- both those I find and those I create. I am a director; I create perception, whether it is by working with models or how I see the world transposed in the contained energy of a photograph. My personal work is about feeling the moment, my commercial work is about believing it.

I have lived in NYC and LA, and some time in France. I migrated to Kauai and then Mill Valley, north of SF. My camera is a passport, and I travel with it into different dimensions- geographic, time, states of mind, and of the spirit.

Previous Clientele

My clients have been in fashion, people, travel and editorial.

Awards and Accolades

I graduated with a degree in cinema and specialized in documentary work. I also have acted and directed in the theater in NYC and LA.

I am currently a member of APA.

Awards and Accolades

Attention has been paid to my work and I have
been paid for it.

I have a show and a book planned titled
"Repose".
