Professional Experience and Curriculum Vitae
I have been a professional photographer working in a variety of areas including fashion, beauty, weddings and all kinds of corporate work for the past 30 years or so. During that time I have lived and worked in the UK, the USA and France.

I am now based in the West Midlands where I have my own studio. I have worked with many of the big international fashion names as well as many well known celebrities during my career and have had a great deal of fun doing it.

I am an expert with Photoshop and am also an experienced graphic designer including personal web sites.

When it comes to pricing my work I am first and foremost a realist. The digital world has brought with it many new and challenging ways of doing things and retaining a competitive edge is an essential ingredient of business life these days. I am fully aware of this so my prices are competitive and my service second to none.

Please call me for an informal chat if there's anything on your mind. You never know - I might just have a solution for you...
