Professional Experience and Curriculum Vitae

I'm a Vocational counselor from USA. On 2015, I quit my job as a senior creative at Crispin Porter + Bogusky in Boulder, Colorado - US and decided to move back to Charleston to figure out an independent way to work and make cool stuff by my own. I collaborate with some people to enhance my writing skills. I wrote many articles on astrology topics like vashikaran using hair, stri vashikaran totke, baal se vashikaran totke, etc. It was a tough move, but I can't complain at all. It's been such an exciting new phase.
