Professional Experience and Curriculum Vitae

I am a graphic designer/multimedia specialist who is always interested in exploring new opportunities. As a graphic designer/media specialist, my role is to create and execute strategies for companies seeking to engage their community through visual media. I focus primarily on four core areas: listening, design, communication, and interest.

I constantly strive to perform my job's daily tasks at a higher level with attention to detail. As a fast learner, I can quickly pick up new technologies with little or no training, offering a great asset as an employee. I thrive in both independent and team-oriented work environments and can effectively represent myself and an organization in professional settings. My artistic background bleeds into my personal life too. I design, sketch, & play music as a few of my hobbies. My profession is simply an additional outlet for my passion.

Previous Clientele

Premier Outdoors
Korky
Lavelle Industries
91.7FM The Edge
Royal Purple News
Midtown Automotive
Bistro 220
