Professional Experience and Curriculum Vitae

I am an experienced New Zealand Fashion designer/ Industrial designer/ Graphic designer based in Europe.
I have a serious drive for origionality and quality.
I believe design comes naturally as a way of working towards a better world.
I believe design, in the broad sense can provide people and industries with the tools to reinvent our way of perceiving and handling the world.
Future products and solutions have to have a more emotional and functional meaning to them. Solutions and products therefore should provide a more intelligent and meaningful approach, including multi-function, character, beauty, identity and human emotions.
Creative Director of ninedesign in Denmark, est. 2008.
Feel free to contact me for innovative product design work within mens sport fashion, graphic or industrial product design. Equipt with a pro manufacturing network in China.
Best regards,
Andrè Harley,
designer
