Professional Experience and Curriculum Vitae
Hello and welcome to Anita Nicholson Photography, thank you for taking the time to stop by for a visit.

I'm a Northumberland based photographer with a love for the great outdoors and for capturing images that convey a sense of place and wonder at nature's beauty. I've been chasing clouds and taking images, from sunrises at silly o'clock to star filled skies after dark, from across Northumberland, the Lake District and beyond for the past six years.

In 2014, having been offered a commission for Larbert House, I established Anita Nicholson Photography to provide commercial photographic services to businesses both in the North East of England and further afield. Photographic services include the use of existing landscape and seascape images, which can be found in the Gallery section of my website, or bespoke commissions tailor made to your requirements. A portfolio of my work can be found in the Commissions section of my website. In addition, a selection of my images are available for license via Getty Images www.gettyimages.co.uk.

If you would like to find out more about how I can help you promote your business through the use of my photography or if you'd like to chat through any queries you may have, please get in touch via the Contact form on my website, it'd be great to hear from you!

Best wishes, Anita

TESTIMONIALS

"We appointed Anita to undertake photography in Scotland on behalf of a property development company just outside Stirling. She met our brief in ever detail. Under pressure of time, and in just one weekend, Anita captured more high quality images than we could ever have hoped for. The result is a photographically led brochure and website which our client, larberthouseestate.com is delighted with." Stefan Lepkowski, Director, Karol Marketing, www.karolmarketing.com

"We appointed Anita to help us market our extensive property portfolio in Northumberland. We wanted to capture the real beauty of the Northumberland coastline and surrounding landscape. Anita's images are truly breathtaking and helped to inspire those from further afield looking to Northumberland to base their business. She is a true ambassador for Northumberland and her talent is second to none. With Anita's creative flair our marketing campaign has truly come to life." Alex Wiley, Marketing and Communications Manager, Arch - The Northumberland Development Company

"We asked Anita to take photos of our liveried van in a number of locations around Northumberland, to provide us with publicity photos for brochures, flyers, website and social media sites. We have also had some of the photos made into large prints for our programme office - everyone that comes to visit is impressed. We had previously used some of Anita's landscape photos within our iNorthumberland Twitter feed and people loved them, so Anita Nicholson Photography was an obvious choice for our project. Anita's talent for what makes a good picture and her experience of Northumberland have delivered some excellent results for our programme." John Cooper, Digital Engagement Manager, iNorthumberland Superfast Broadband Programme
