Professional Experience and Curriculum Vitae

Hello, My name is Anita. I am from Newport News. I work as a computer operator at JK Gill Company. I am the person who is responsible for monitoring and controlling computer systems especially mainframe computer systems in the company. In my free time, I love to read interesting articles, recently I read an article Rabbi inni lima anzalta for love marriage. It was quite interesting. My responsibilities include troubleshooting software and hardware problems, monitoring batch processing, maintaining and online availability, maintaining all system and application documentation.
