Professional Experience and Curriculum Vitae
ALVARO DAZA

Colombian artist Alvaro Daza was born in 1950.
and is an artist of his time, earning great recognition local and internationally, not only for his work , but also because he is his greatest promoter, appropriating an unmistakable style that allows anyone who sees his work to assert that the magic inventions are no one else´s but Daza´s master pieces.
His work are explosions of color that seems to emerge from magic landscape that he also paints, colors that grow and mature like his trees, which hide beneath their bushes abstracts and sculptures , the fruits of a masterly expressionism.
Daza works in mixed-media, landscape, modern, painting, abstract, and sculpture.
