Professional Experience and Curriculum Vitae

I am a multi-disciplined designer and Illustrator who work and live in London, UK. Humor and imagination is very important in my work, which is strongly influenced by my love for playing, childhood nostalgia, nature and characters. I like to create work that makes people smile and work with hand drawn as well as vector illustration on various projects ranging from illustrations for print media, to apparel, patterns and products to murals and shop window displays. For more information please visit my website: <http://cargocollective.com/asawikman>
