Professional Experience and Curriculum Vitae

I am an eclectic mix of technical and creative skills. A Graphic Designer, Digital Artist, and Internet Marketer from Halifax, Nova Scotia.

I do professional and search-engine optimized web site design. I also create and manage internet marketing and social media campaigns. On the side, I am a digital artist, creating illustrations, ads, logos for print and brochures.

I can plan, strategize and execute campaigns whilst designing all the visuals. A renaissance woman at heart, I strive to understand the inner-workings of all that I touch.
