Professional Experience and Curriculum Vitae
I'm Balazs Koch, a fashion photographer from Budapest. _ www.balazskoch.com _ I have been taking photos for about 7 years. In fashion photography I have been inspired by the great photographers of the 70s and 80s such as Richard Avedon, Helmut Newton, among the contemporary ones I like Peter Lindbergh and Hedi Slimane. I like simple, natural pictures, a captured moment, an expressive look is a lot more important than a well composed grotesque pose that is sometimes preposterous or simply unnatural. A feeling, a mood is more essential for me than the perfect lights and well constructed composition.
Most of my pictures are black and white, as it helps to simplify the spectacle and attracts the attention on the gist.

Previous Clientele
