Professional Experience and Curriculum Vitae
Also known AS…
„burned camera“
If you pronounce my name the right way, what do you get? Funny coincidence and easy to remember.

Ever since my first photoclass, age 14, with Horst Duerrschmitt in Lugano, i am hooked to the camera.

Being a Stuttgart homeboy, i am very happy to work with big and small clients all over this funky planet. And to make sure that my visual language is captured from the beginning to the end, most of the retouching is done inhouse.
I`m a BFF Professional.

Previous Clientele
too many to Mention: Small & Big Brands from all over this World.
