Professional Experience and Curriculum Vitae
Hi, my name is Braum Harrison. I work as a designer at Edufixers. I live in Fremont, Nebraska. I was born in Kansas on March 17th, 1990.

I love reading books and fanfiction, and I also enjoy graphic design as a hobby. My favorite anime are Naruto and Attack on Titan, and my favorite Marvel superheroes are Iron Man and Spider-Man. I'm also interested in history and science.

Previous Clientele
I have worked with a variety of clients in the past, ranging from small businesses to large corporations. I have also worked with individuals who are seeking to improve their personal brand. Some of my past clients include: XYZ Corporation, ABC Company, and 123 Solutions. I have also worked with smaller businesses, such as: The local coffee shop on Main Street, The mom-and-pop shop down the street, and The family-owned business around the corner. Each client is unique and brings their own set of challenges and rewards. I enjoy working with all types of clients and helping them to achieve their goals.

Awards and Accolades
Most job applicants are asked to submit a resume or CV when applying for a position. While this may seem like a straightforward task, there is actually a lot of thought that should go into your resume in order to make it stand out from the rest. First, you'll want to carefully consider what format to use. There are many different ways to format a resume, and you'll want to choose one that will highlight your strengths and experiences in the best possible light. Next, you'll need to decide which information to include and how to present it. Again, you'll want to focus on those elements of your background that are most relevant to the position you're applying for. Finally, don't forget to proofread your resume carefully before sending it off. A few typos could be enough to sink your chances of getting an interview. By taking the time to craft a well-written and thoughtful resume, you'll be increasing your chances of landing the job you want.

Awards and Accolades
I have been fortunate enough to receive several awards and accolades over the course of my career. Among them, I am particularly proud of the following:

- "Best Young Investigator Award" from the American Society for Clinical Investigation (ASCI)
- "Outstanding Junior Faculty Member Award" from the Department of Pediatrics at the University of California, San Francisco (UCSF)
- "Rising Star Award" from the National Institutes of Health (NIH)
- "Exceptional Mentor Award" from the UCSF School of Medicine Dean's Office

Each of these awards is a testament to the hard work and dedication that I bring to my work as a scientist and physician. I am grateful to have received them, and they continue to motivate me
