Professional Experience and Curriculum Vitae

I am a Graphic Designer working in print, illustration, web design and recently sculpture.

Cabein (ka-b-en) was formed in 2000 as a site to showcase my work and has developed over the years into it's current form as a small collection of selected projects, Blog and Shop.

As well as working as a freelancer i also make time to work on self initiated projects to learn new skills and explore different techniques.
