Professional Experience and Curriculum Vitae
I am but one lone artist, striving to create the awesome, engaging games. All of Pirates Haven, from the design, game mechanics, web site, promotional material, online game design and art are all created by myself. Now I seek the help of those who would like to see Pirates Haven become a reality!

My mission is to bring amazing artwork and design to fun and imaginative games like never before, taking existing strengths of the genres and combining them into new ways to play.

To further this I wish to merge the physical game with mobile and other gaming devices, creating an accompanying digital version where players around the world can play with one another and benefit from owning the physical game.

Work History:
Recognize Media
Owner - Mychal Allen

Artemis PR & Design
Victoria BC Canada

Fusion Creative
