**Professional Experience and Curriculum Vitae**
Child of the 80's. Midwestern kid. Grew up watching Thundercats, G.I.Joe and Transformers. Loved to play with my Star Wars toys from the original trilogy. Kept a stack of comics (and still do) next to my bed. I still remember the creaking sounds of the comic spinner racks at the local drugstore. Each week I'd grab a few new issues, a root beer, a pack of Bonkers candy, and head to the park and read. I doodle way too much when I'm not supposed to and not enough when I should. Full time designer by day, dreaming of illustrating at night.

**Previous Clientele**
Daytons, Marshall Field's, Target
