Professional Experience and Curriculum Vitae

A creative and vivacious character with a charming disposition and an immaculate smile, Carina is a highly versatile thinker who thinks out of the box and an effective implementer who possesses the ability to multi-task and conquer problems with inventive solutions that work. Carina graduated with a BA Architecture degree from the School of Architecture of the National University of Singapore (2005) before earning a MA in Design from the Haute école d'art et de design of Geneva (2011). Before her post-graduate studies, she worked 3 years as a project manager in the fields of design and architecture where she had the opportunity to meet and work with luminaries from the international design world, who inspired her to return to designing for herself. As a designer, Carina is interested in multi-disciplinary works that span across space and communication, particularly in the fields of exhibition design, museography and new media.
