## **Professional Experience and Curriculum Vitae**

I transform things and that transforms me. I like the twisty, the knotty, the frayed. I like the dried the spent and seemingly ordinary things that are truly extra-ordinary. I work in paint, paper, digital, jewelry, video, fabric and beeswax. Always attempting to bring unseen world to be seen.

I like bridging extremes. Working in Eugene Oregon for the last year. Roots are in British Columbia Canada and childhood in South Western Ontario. Mennonite background.
